

Cornelio A. Gatbonton Jr

Junior Full-Stack Web Developer | Next.js | Supabase | QA Testing

Manila Philippines | www.linkedin.com/in/corneliogatbonton | corneliogatbontonjr21@gmail.com | 0951-672-4009

PROFESSIONAL SUMMARY

Junior Full-Stack Web Developer with hands-on experience building modern web applications using Next.js and Supabase (PostgreSQL). Experienced in implementing authentication, system flowcharts, and structured test case validation. Strong foundation in client-server architecture, database design, debugging, and quality assurance testing to ensure secure and scalable system deployments.

TECHNICAL SKILLS

- Frontend: Next.js, React, JavaScript (ES6), HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend & Database: Supabase, PostgreSQL, PHP, MySQL
- Testing & QA: Test Case Design, Functional Testing, Integration Testing, UAT, Debugging, Bug Documentation
- Architecture & Documentation: System Flowcharts, Data Modeling, Database Normalization, Client-Server Architecture
- Tools & Version Control: Git, GitHub, VS Code, XAMPP, MySQL Workbench

INTERNSHIP EXPERIENCE

Junior Full-Stack Web Developer (Intern)

Little Ark Foundation Inc. | January 2026 – Present

- Assisted in developing a web application using Next.js and Supabase (PostgreSQL)
- Designed relational database schemas and applied Row Level Security (RLS)
- Integrated backend services and API based data operations
- Developed responsive UI using Tailwind CSS
- Created and executed structured test cases for QA validation
- Identified, documented, and resolved system bugs prior to deployment
- Collaborated with stakeholders to improve system workflows and usability

TECHNICAL PROJECTS

Smart POS System

Capstone Project | Jan 2025 – Nov 2025

Tech Stack: PHP 8, MySQL 8.0, JavaScript (ES6), Tailwind CSS 4, Chart.js

- Designed and developed a client server Smart POS system with POS interface, Self Service Kiosk, Customer View System (CVS), Barista View System (BVS), and Manager Dashboard
- Created system flowcharts, database schema design, and application workflow architecture
- Implemented real time sales analytics dashboards using Chart.js
- Automated manual ordering and inventory processes, reducing queue time during peak hours
- Conducted structured QA testing (alpha, beta, gamma), validated system workflows, and resolved identified bugs prior to deployment
- Developed technical documentation and user manuals to support system adoption

Car Rental Management System

Capstone Project | Jan 2025 – Jun 2025

Tech Stack: PHP 8, MySQL 8.0, JavaScript, Tailwind CSS 4, Flowbite, Nodemailer, Chart.js

- Developed a centralized booking and rental management system with customer and admin modules
- Designed relational database schema and detailed system process flowcharts
- Implemented admin dashboard for vehicle inventory, booking transactions, status tracking, and analytics
- Integrated email notification system using Nodemailer for booking confirmations and updates
- Improved operational visibility through real time reporting and accountability tracking
- Assisted in debugging, validation testing, and pre deployment system verification

WORK EXPERIENCE

Golden Arches Development Corporation. - Mcdonald`s

Service Crew | Aug 2023 - Present

- Handled customer orders, prepared meals, maintained dining area cleanliness, and ensured a welcoming environment.
- Delivered friendly, efficient service while using product knowledge to assist customers in making informed meal choices.

Global Reciprocal Colleges

IT Support Assistant (Student Assistant) | Jul 2023 - Dec 2025

- Performed hardware maintenance and repairs, including soldering, component replacement, and troubleshooting peripherals, while installing and configuring operating systems, software, printers, and lab equipment.
- Provided technical support to users, efficiently diagnosing and resolving hardware, software, and system issues.

Be Connected Management Services - Bench

Stock Clerk | Jul 2021 - Aug 2022

- Analyzed inventory to identify excess slow moving and obsolete inventory and overseen disposition.
- Reported on upper management regularly and provided recommendations for better inventory control.
